# Year 2 Netball Lesson 2

## Lesson Objectives
- To be able to pass the ball and find space to receive a pass.

## Equipment:
- Netballs, cones

## Warm Up
Teacher will give the pupils a series of different movements to execute:
- Walking, jogging, sidestepping, skipping and hopping.

### Progression
Teacher can then give a number to the different movements:
1 = Walking, 2 = jogging, 3 = sidestepping etc.

### With timings
- 10 min

## Introduction
Recap the last lesson about hitting a target by passing. Put pupils into groups of 3. Pupils pass the ball to each other using the passes and throws developed in the previous lesson.

### Discuss
1. Netball rule: players cannot move with the ball.
2. How can we ensure that we are catching the ball?
3. What is intercepting?

### With timings
- 5 min

## Main (Development/ Application)

### Development
Pupils stay in groups of 3. They attempt to see how many successful passes they can achieve without dropping the ball. Every time a pupil passes the ball that same pupil must move to a new space to receive a new pass.

### Application
Pupils continue to work in groups of 3. Two pupils attempt to pass the ball to each other whilst the third pupil attempts to intercept the ball. If the interceptor gets the ball successfully then they swap over with the pupil that last passed the ball.

### Progression
Passing pupils score 1 point every time they do 5 passes without the ball being intercepted.

### With timings
- 10 min

### Harder:
- Ask pupils to pass the ball over longer distances.

### Easier:
- Give groups a larger, softer ball.

### Harder:
- Give pupils a small square to play in (marked out by cones).

### Easier:
- Allow pupils to use the whole space and to move when they have possession of the ball.

### Harder:
- Give pupils a 5 second time limit before they pass the ball. If they still have possession after 5 seconds they swap over with the interceptor.

### Easier:
- Allow passing players to roll the ball as well as pass.

## Plenary questions
Who found it harder to pass the ball with a defender in the way? Why?
